

WIRELESS POWER BANK 10000

with Suction Cups

TTAPK13

Energize brands with this compact wireless power bank that packs a two-in-one charging punch and delivers highly visible branding. This power bank is capable of charging both wired and wirelessly at the same time, such as a fitness tracker with a cable and a Qi-enabled smartphone using its wireless charging functionality. With a large 10,000mAh capacity, this power bank can fully charge the latest Samsung Galaxy S6 tablet and still have battery power left over. Its compact design and 12 strong suction cups hold the power bank and a smartphone firmly together. Its high charging capacity, small footprint and high-gloss, full-color branding makes this promotional branding powerhouse.
